

SUPPLEMENTAL LABEL

GROUP 9 HERBICIDE

Cornerstone[®] Plus

EPA Reg. No. 1381-192

KEEP OUT OF REACH OF CHILDREN CAUTION

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read this label and the product container label before using this product. This Supplemental Label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the product label for Cornerstone[®] Plus attached to the container. For application rates, refer to the Cornerstone[®] Plus container label *Annual Weeds Rate Table*, *Perennial Weeds Rate Table* and *Woody Brush and Trees Rate Table*.

FORESTRY, INDUSTRIAL, TURF & ORNAMENTAL

Forestry Site Preparation

Labeled uses: Control or partial control of woody brush, trees and herbaceous weeds in forestry, preparing or establishing wildlife openings within forestry sites and maintaining logging roads, site preparation prior to planting any tree species, including Christmas trees, eucalyptus, hybrid tree cultivars and silvicultural nursery sites.

Type of applications: Boom-Sprayers, Shielded Boom Sprayers, High Volume Off- Center Nozzles, Hand-Held Equipment, And Similar Equipment

Use instructions: MAKE APPLICATIONS ACCORDING TO THE RATES LISTED IN "ANNUAL WEEDS", "PERENNIAL WEEDS", AND "WOODY BRUSH & TREES RATE TABLES" IN THIS LABEL.

Use higher rates of this product within the specified range for control or partial control of woody brush, trees and hard-to-control perennial herbaceous weeds. For best results, apply to actively growing woody brush and trees after full leaf expansion and before fall color and leaf drop. Increase rates within the specified range for control of perennial herbaceous weeds any time after emergence and before seed heads, flowers or berries appear.

Use the lower rates of this product within the specified range for control of annual herbaceous weeds and actively growing perennial herbaceous weeds after seed heads, flowers or berries appear. Apply to the foliage of actively growing annual herbaceous weeds any time after emergence.

Tank mixtures: Tank mixtures of this product may be used to increase the spectrum of vegetation controlled. When tank mixing, read and carefully observe the label claims, cautionary statements and all information on the labels of all products used. Use according to the restrictive precautionary statements for each product in the mixture.

NOTE: For forestry site preparation, make sure the tank-mix product is approved for use prior to planting the desired species. Observe planting interval restrictions.

For control of herbaceous weeds, use the lower specified tank mixture rates. For control of dense stands or tough-to-control woody brush and trees, use the higher specified rates.

Restrictions: Do not-apply this product as an over-the-top broadcast spray for forestry conifer or hardwood release unless otherwise specified on this label, or in separate supplemental labeling published by Winfield Solutions, LLC for this product.

Noncrop Areas and Industrial Sites

Labeled uses: Non-crop areas including airports, apartment complexes, commercial sites, ditch banks, dry ditches, dry canals, fencerows, golf courses, greenhouses, industrial sites, landscape areas, lumber yards, manufacturing sites, municipal sites, natural areas, office complexes, ornamentals, parks, parking areas, pastures, petroleum tank farms and pumping installations, plant nurseries, public areas, railroads, rangeland, recreational areas, residential areas, rights-of-way, roadsides, schools, sod or turf seed farms, sports complexes, storage areas, substations, turfgrass areas, utility sites, warehouse areas, and wildlife management areas.

Types of applications: This product may be applied with any suitable application equipment described in the Application Equipment and Techniques section of this label.

Use instructions: This product may be used to trim-and-edge around objects in non-crop sites, for spot treatment of unwanted vegetation and to eliminate unwanted weeds growing in established shrub beds or ornamental plantings. This product may be used prior to planting an area to ornamentals, flowers, turfgrass (sod or seed), or prior to laying asphalt or beginning construction projects.

MAKE APPLICATIONS ACCORDING TO THE RATES LISTED IN "ANNUAL WEEDS", "PERENNIAL WEEDS", AND "WOODY BRUSH & TREES RATE TABLES" IN THIS LABEL.

Repeated applications of this product may be used, as weeds emerge, to maintain bare ground.

Tank mixtures: This product may be tank mixed with other products provided that the specific product is registered for use on the target site. Refer to these product labels for approved sites and application rates. Read and carefully observe the cautionary statements and all other information appearing on the labels of all herbicides used. Use according to the most restrictive precautionary statements for each product in the mixture.

User is responsible for ensuring that the mixture product's label allows the specific applications.

When applied as a tank mixture for bare ground, this product provides control of the emerged annual weeds and partial control of emerged perennial weeds, woody brush and trees.

Restrictions: This product plus dicamba tank mixtures may not be applied by air in California.

Ornamentals, Plant Nurseries, and Christmas Trees

Labeled sites: Plant Nurseries, Christmas Tree farms & other non-food tree production sites.

Types of applications: Post-Directed, Site Preparation, Spot Treatment, Trim and Edge, Wiper Application

Use instructions: Post-directed, trim and edge: This product may be used as a post-directed spray and spot treatment around established woody ornamental species (including arborvitae, azalea, boxwood, crabapple, eucalyptus, euonymus; fir, Douglas fir, jojoba, hollies, lilac, magnolia, maple; oak, poplar, privet, pine, spruce and yew, growing in plant nurseries, on Christmas tree farms, or on other non-food tree production sites), or to trim and edge around trees, buildings, sidewalks, roads, potted plants and other objects in a production setting.

Apply at a concentration specified in the weed tables appropriate to the species of weed to be controlled.

Desirable plants may be protected from the spray solution by using shields or coverings made of cardboard or other impermeable material.

Site preparation: This product may be used prior to planting any tree, shrub or vine, including Christmas tree species, in a nursery or production setting.

Wiper application: This product may be used through wick or other suitable wiper applicators to control or partially control undesirable vegetation around established trees, shrubs or vines.

See the "SELECTIVE EQUIPMENT" section of this label for further information about the proper use of wiper applicators.

Precautions: UNLESS OTHERWISE DIRECTED, THIS PRODUCT IS NOT RECOMMENDED FOR USE AS AN OVER-THE-TOP BROADCAST SPRAY IN ORNAMENTALS AND CHRISTMAS TREES.

Care must be taken to avoid contact of spray, drift or mist with foliage or green bark of desirable ornamental species.

Parks, Recreational & Residential Areas

Labeled sites: Around Trees, Fences, Paths, Driveways, Around Buildings, Patios, Sidewalks, Flower Beds, Around Shrubs and other Ornamental Plants.

Types of applications: Trim-and-Edge, Spot Treatment, Site Preparation, Lawn Renovation

Use instructions: **Trim-and-Edge, Spot Treatment:** This product may be used to eliminate unwanted weeds growing in areas listed above. Use suitable hand held equipment for directed spraying according to instructions in "MIXING FOR HAND-HELD SPRAYERS". If necessary, use cardboard or plastic to shield desirable plants.

Do not use for spot weed control in lawns since desirable lawn grass will also be killed.

Site Preparation, Lawn Renovation: This product may be used prior to planting an area to ornamentals, flowers, turfgrass (sod or seed), lawn renovation or prior to laying asphalt or beginning construction projects.

MAKE APPLICATIONS ACCORDING TO THE RATES LISTED IN "ANNUAL WEEDS", "PERENNIAL WEEDS", AND "WOODY BRUSH & TREES RATE TABLES" IN THIS LABEL.

Apply using suitable broadcast or directed spray equipment. For lawn renovation, thorough coverage is necessary to kill all weeds and old lawn.

For best results, apply when daytime temperatures are at least 60 F.

Do not mow for 7 days before or after treatment. 7 days after application, soil may be tilled, fertilized and seeded.

Precautions: Spray only when air is calm. Care must be taken to avoid contact of spray, drift or mist with foliage or green bark of desirable ornamental species.

Railroads

Labeled sites: Railroad Rights-of-Way, Railroad Ballast areas.

Types of applications: Boom Sprayers, Shielded Boom Sprayers, High-Volume Off-Center Nozzles, Hand-Held Equipment

Use instructions: All of the instructions in the "NONCROP AREAS AND INDUSTRIAL SITES" section apply to railroads.

MAKE APPLICATIONS ACCORDING TO THE RATES LISTED IN "ANNUAL WEEDS", "PERENNIAL WEEDS", AND "WOODY BRUSH & TREES RATE TABLES" IN THIS LABEL.

This product may be used to maintain bare ground on railroad ballast and shoulders. Repeat applications of this product may be used, as weeds emerge, to maintain bare ground. This product may be used to control tall-growing weeds to improve line-of-sight at railroad crossings and reduce the need for mowing along rights-of-way. For crossing applications, up to 80 gallons of spray solution per acre may be used.

Tank mixtures: This product may be tank mixed with other products for ballast, shoulder, spot, bare ground and crossing treatments provided that the specific product is registered for use on such sites. Refer to these product labels for approved non-crop sites and application rates. Read and carefully observe the cautionary statements and all other information appearing on the labels of all herbicides used. Use according to the most restrictive precautionary statements for each product in the mixture.

Brush Control: This product may be used to control woody brush and trees on railroad rights-of-way.

Apply 4 to 10 quarts of this product per acre as a broadcast spray, using boom-type or boom less nozzles. Up to 80 gallons of spray solution per acre may be used.

Apply a 3/4 to 2 percent solution of this product when using high-volume spray-to-wet applications.

Apply a 5 to 10 percent solution of this product when using low volume directed sprays for spot treatment.

This product may be mixed with other products for enhanced control of woody brush and trees.

Precautions: Observe application precautions in "APPLICATION EQUIPMENT AND TECHNIQUES". Avoid application to non-target plants due to drift, overspray or runoff.

Roadsides

Labeled sites: Roadside Rights-of -Way areas (including Shoulders, Guardrails and Sign posts).

Types of applications: Boom Sprayers, Shielded Boom Sprayers, High-Volume Off-Center Nozzles, Hand-Held Equipment and Similar Equipment, Spot Treatment

Use instructions: All of the instructions in the "NONCROP AREAS AND INDUSTRIAL SITES" section apply to roadsides.

MAKE APPLICATIONS ACCORDING TO THE RATES LISTED IN "ANNUAL WEEDS", "PERENNIAL WEEDS", AND "WOODY BRUSH & TREES RATE TABLES" IN THIS LABEL.

This product may be used on road shoulders, under guardrails and around signposts and other objects along roadsides that may be obstacles to mowing.

Tank mixtures: This product may be tank-mixed with other products for shoulder, guardrail, spot and bare ground treatments.

See the "NONCROP AREAS AND INDUSTRIAL SITES" section of this label for instructions for tank mixing.

Precautions: Observe application precautions in "APPLICATION EQUIPMENT AND TECHNIQUES". Avoid application to non-target plants due to drift, overspray or runoff.

Utility Sites

Labeled sites: Electrical Power, Pipeline and Telephone Rights-Of-Way, and In Other Sites Associated With These Rights-Of-Way, Including Substations, Roadsides, Railroads Or Similar Rights-Of-Way That Run In Conjunction With Utilities.

Types of applications: Boom Sprayers, Shielded Boom Sprayers, High- Volume Off-Center Nozzles, Hand-Held Equipment and Similar Equipment

Use instructions: This product may be used in utility sites and substations to control unwanted vegetation and to eliminate unwanted weed -growing in established shrub beds or ornamental plantings. This product may be used prior to planting a utility site to ornamentals, flowers, turfgrass (sod or seed), or beginning construction projects.

MAKE APPLICATIONS ACCORDING TO THE RATES LISTED IN "ANNUAL WEEDS", "PERENNIAL WEEDS", AND "WOODY BRUSH & TREES RATE TABLES" IN THIS LABEL.

Repeated applications of this product may be used, as weeds emerge, to maintain bare ground.

This product can also be used when preparing or establishing wildlife openings within these sites, maintaining access roads and for side trimming along utility rights-of-way.

For control of herbaceous weeds, use the lower specified tank mixture rates. For control of dense stands of tough-to-control woody brush and trees, use the higher specified rates.

Tank mixtures: Tank mixtures of this product may be used to increase the spectrum of control for herbaceous weeds, woody brush and trees. Refer to these products' labels for approved non-crop sites and application rates. Read and carefully observe the cautionary statements and all other information appearing on the labels of all herbicides used. Use according to the most restrictive precautionary statements for each product in the mixture.

User is responsible for ensuring that the mixture product's label allows the specific application when tank mixing with other products.

Precautions: Observe application precautions in "APPLICATION EQUIPMENT AND TECHNIQUES". Avoid application to non-target plants due to drift, overspray or runoff.
