PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

FIRST AID

Have the product container or label with you when calling a poison control center or physician, or obtaining treatment.

IF SWALLOWED	• Immediately call a poison control center or doctor. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Have person sip a glass of water if able to swallow. • Do not give anything by mouth to an unconscious person.
IF INHALED	• Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING	• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
IF IN EYES	• Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER: Have the container or label with you when calling a poison control center or doctor or going for treatment. For additional information on this product (including health concerns, medical emergencies or pesticide incidents), you may call 1-800-248-7763, 24 hours per day, 7 days per week.

For Chemical Spill, Leak, Fire, or Exposure, Call: CHEMTREC 1-800-424-9300. For Medical Emergencies Only, Call: 1-800-248-7763.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run-off into storm drains, drainage ditches, gutters, or

surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area. See Directions for Use for additional precautions and restrictions.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS

- Apply this product only as specified on this label.
- Do not contaminate food or feedstuffs.
- **THIS PRODUCT IS FOR USE IN NON-FOOD AREAS ONLY.**
- Do not use in aircraft cabins.
- Aerial applications are prohibited.
- Applications with power duster equipment are prohibited.
- Only apply as a spot treatment to areas no greater than 3 feet by 3 feet per room.
- Do not make applications during rain. Do not water the treated area to the point of run-off.
- Do not allow adults, children, or pets to enter the treated area until dusts have settled.
- Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the treated area during application.
- Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment and food preparation surfaces, or wash them before use.
- All outdoor applications must be limited to spot or crack-and-crevice applications only, except for the following permitted uses: (1) Treatment to soil or vegetation around structures; (2) Applications to lawn, turf, and other vegetation; and (3) Applications to building foundations, up to a maximum height of 3 feet. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches, and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications only.
- Do not apply directly into sewer or drains, or to any area like a gutter where drainage to storm sewers, water bodies, or aquatic habitat can occur. Do not allow this product to enter any drain during or after application.
- Remove pets, birds and cover fish aquariums before application.

This product is a formulated ready-to-use dust for use in Homes and NON-FOOD AREAS of Offices, Hotels, Motels, Schools, Hospitals, Nursing Homes, Day-Care Centers, Factories, Warehouses, Stores, Supermarkets, Restaurants, Food Handling Establishments, Commercial or Institutional Kitchens, Food Processing Plants, Zoos, and Transportation Equipment [Aircraft (Do not use in aircraft cabins),

Buses, Trucks, Trailers, Boats, Ships, and Trains].

This product is intended for indoor applications using its own container; a hand-held or power duster is also appropriate. **Shake well before using.**

For Void Treatments: Apply uniformly in and around areas where insects may be crawling, hiding, or living. The amount to be applied may vary depending on the severity of the problem and the site to be treated, but should only be applied to areas no greater than 3 feet by 3 feet per room, to void areas around and behind interior and exterior walls, cabinets, baseboards, moldings, pipe openings, electrical outlets, stairs, window and door frames, and appliances.

For Spot Treatments (Attics, Crawlspaces, False Ceilings, etc.): Apply as a spot treatment to areas no greater than 3 feet by 3 feet per room, in and around areas where insects may be hiding or living. Apply at a rate of 12 to 16 ounces per 1,000 square feet of surface area, depending on the severity of the problem.

For Wasps, Yellow Jackets and Other Stinging Insects: It is advisable to treat wasp and yellow jacket nests in the evening when insects are less active and have returned to the nest. Wear protective clothing, if necessary, to avoid stings. Use a hand duster. Thoroughly dust nest, entrance and surrounding areas. For best results, check nests one or two days after treatment to ensure complete kill. Remove and destroy nest to prevent emergence of newly hatched insects. If removal is not possible, retreat the nest if necessary. For nests in wall voids, drill a hole in the area of the nest, apply dust, and reseal.

For Bed bugs: Apply to cracks, crevices, voids, and/or harborages, where evidence of bed bugs occurs, including bed frames, box springs, inside empty dressers, furniture and clothes closets, carpet edges, high and low wall moldings, behind headboards, pictures, and wallpaper edges. Only apply as a spot treatment to areas no greater than 3 feet by 3 feet per room. Do not make surface applications to mattresses or bedding. Mattress treatments must be limited to seams, folds, and edges only. Do not treat pillows, bedding, or clothing. Remove linens and wash before reuse. Remove all clothes and other articles from dressers or clothes closets before application.

For Outdoor Perimeter Treatments: Apply thoroughly around windows and doors, porches, screens, eaves, patios, garages, under stairways, and in crawlspaces and other areas where pests hide. To help prevent pest problems, apply thoroughly and uniformly to a band of soil and vegetation 6 to 10 feet wide around and adjacent to the building/structure. Treat the building foundation (up to a maximum height of 3 feet) and crawlspaces where pests may find entrance.

For application in NON-FOOD AREAS of food handling establishments only. A food handling establishment is an area or place other than a private residence in which food is held, processed, prepared, and/or served. Non-food areas of food handling establishments include garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage (after canning or bottling). The amount to be applied may vary depending on the severity of the problem and the site to be treated, but should be in the range of 1 to 2 ounces per 100 square feet. Use equipment capable of applying dust directly into voids between different elements

of construction, between equipment and floor, openings leading to voids and hollow surfaces in walls, and equipment legs and bases, where insects hide.

STORAGE AND DISPOSAL

Do not contaminate water, feed or foodstuffs by storage or disposal.

Pesticide Storage: Keep this product in its tightly closed original container, when not in use. Store in a cool, dry (preferably locked) area that is inaccessible to children and animals. Prevent cross-contamination with other pesticides. **Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Disposal:** Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

LIMITATION OF LIABILITY: To the fullest extent permitted by law, the manufacturer disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use or handling of this product. Buyer assumes all responsibility for safety and use not in accordance with label, directions and precautionary statements.

Central Garden & Pet Company, 1501 East Woodfield Road, 200W, Schaumburg, Illinois 60173
